Earth Day

Earth Day is committed to promoting sustainability and environmental conservation 365 days of the year, not just on April 22nd. There are many ways you can get involved and make a difference! Using the DART Rail is a great way to contribute to the health of our planet by reducing carbon emissions from vehicles and avoiding rising fuel prices. We are a stones throw from the Rail station and having it as a transportation option is effortless and inexpensive. Earth Day is a day that is intended to inspire awareness and appreciation for the Earth’s natural environment. It was established by US Senator Gaylord Nelson in 1969 and is now celebrated in over 175 countries every year.
